CAMERA HISTORY

Your webcam only shows now.

We add the history.

A browsable archive for every public webcam — embedded in your site in minutes.

The problem

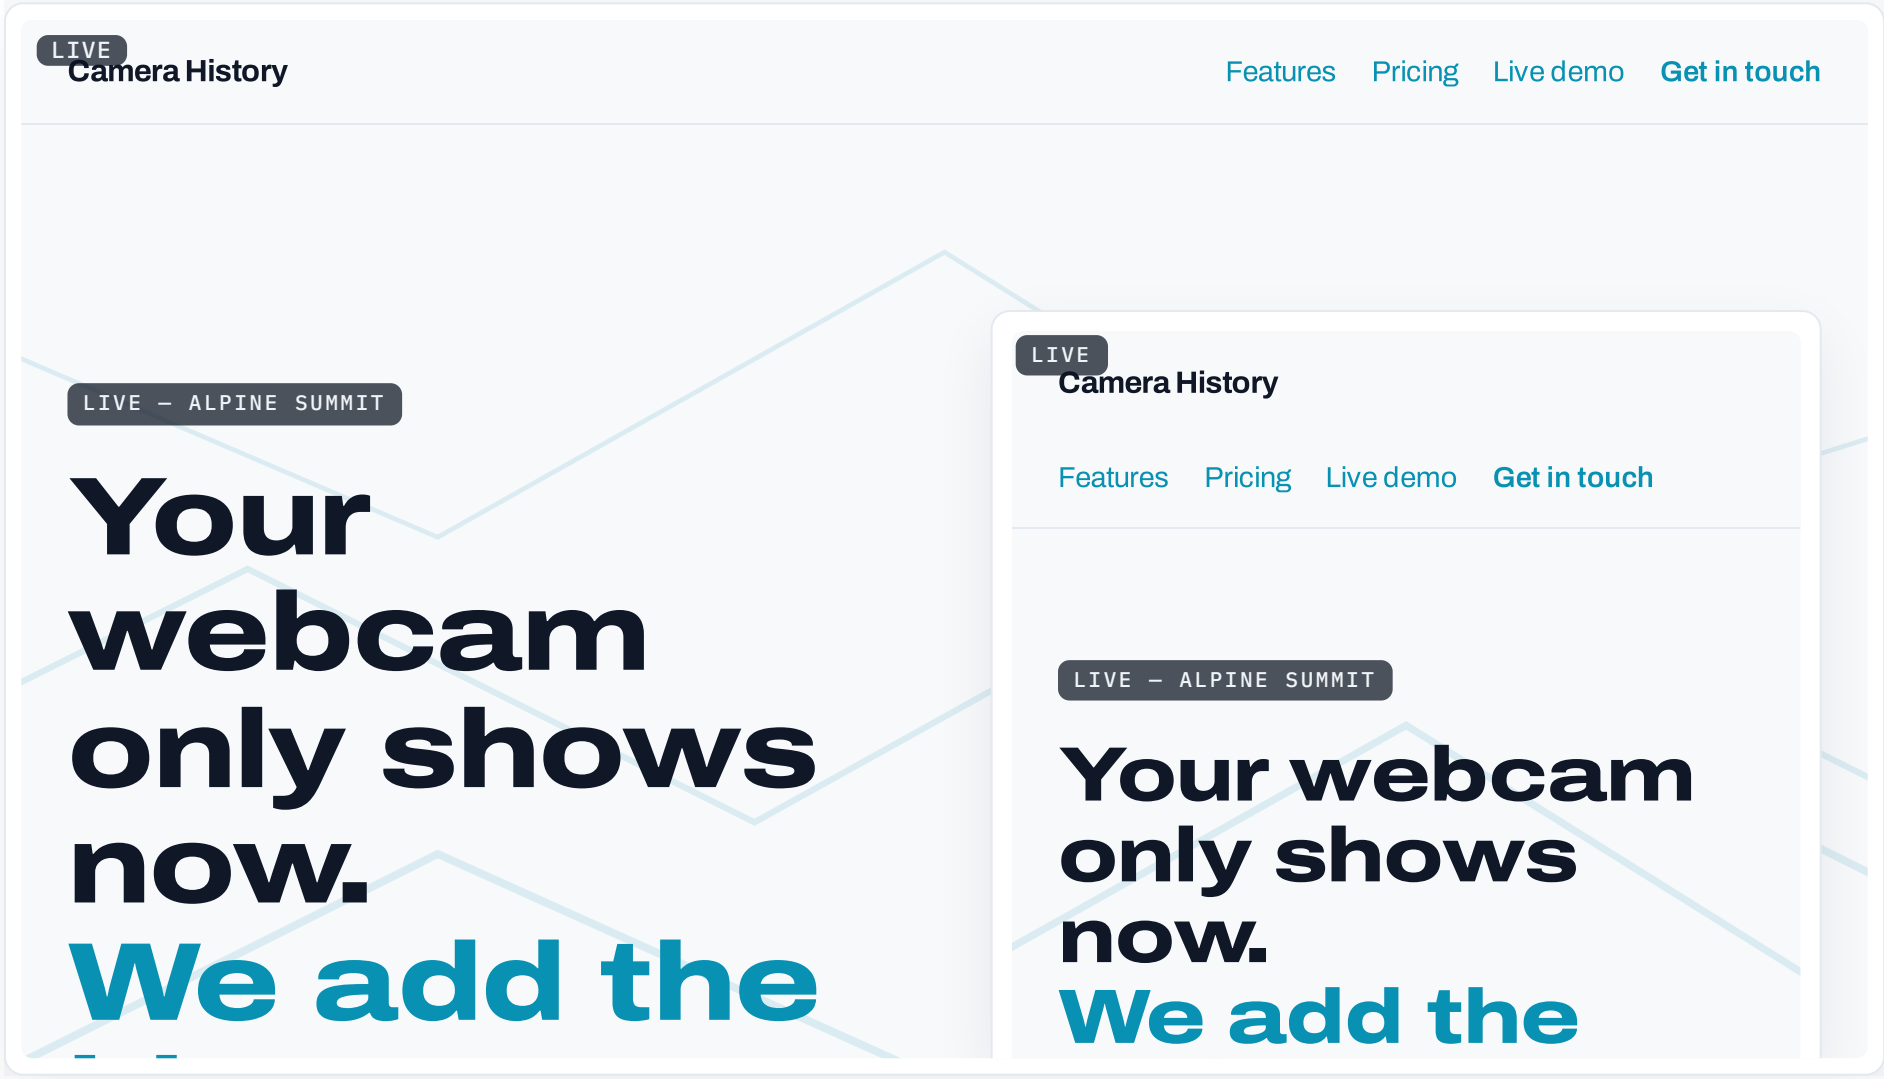

- A webcam shows one moment — then it is gone.
- Your live feed earns a glance, not a place in your visitors' plans.
- Visitors who missed the powder day, the sunset or the storm never come back.

The solution

- We capture your camera every few minutes and keep the archive for you.
- Camera groups, four themes, shareable links and long retention included.
- You embed one `<iframe>` — visitors browse history by day.

Live demo

This deck embeds the real product running right now.

How it works

1. Capture

Your camera is fetched every few minutes, around the clock.

→

2. Store

Captures are kept safe for up to 36 months.

→

3. Embed

Drop one iframe into your site. Done.

Features

Any feed type
JPEG, MJPEG, HLS, RTSP or custom WebSocket.

Four themes
Light, Dark, Forest, Midnight.

Retention up to 36 months
Pick the history your audience needs.

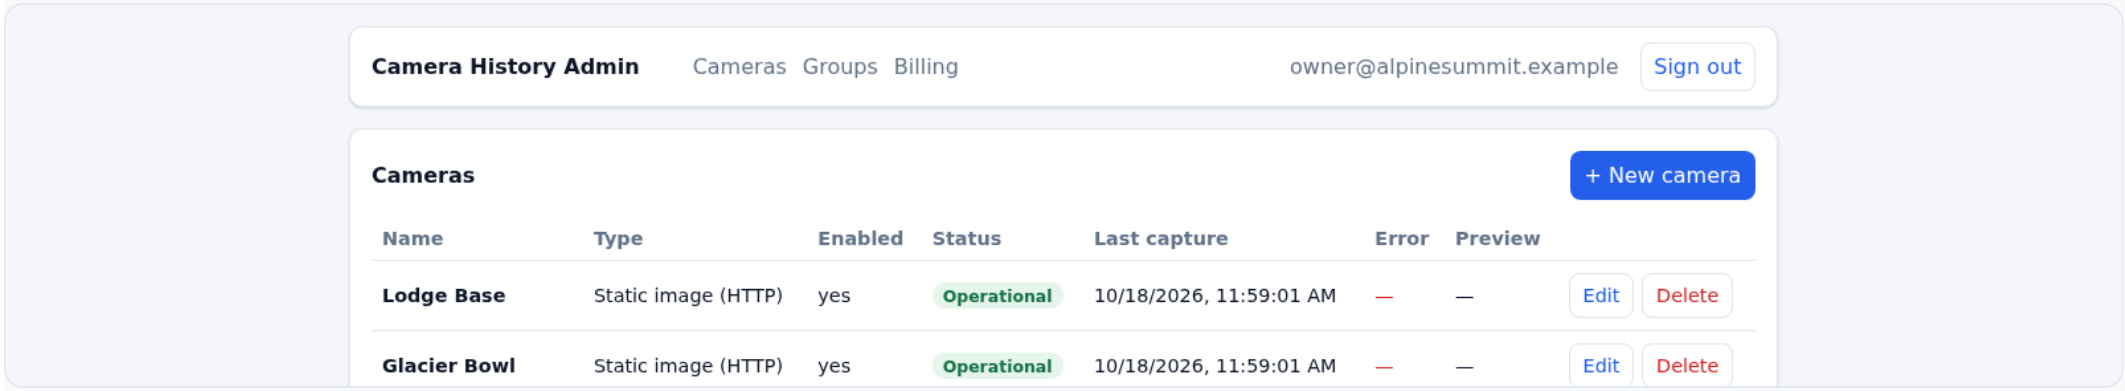

Camera groups
One widget, many angles, instant switching.

Shareable links
Every capture gets a permanent URL.

Mobile ready
Works on every screen, on every site.

Admin dashboard

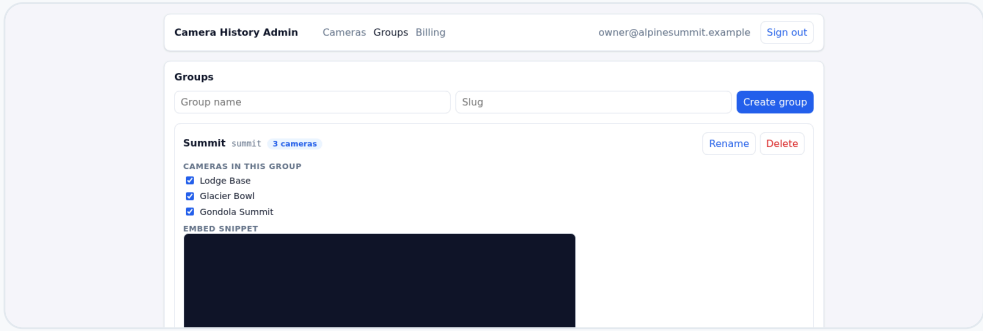

Self-service: add cameras, check status, grab your embed snippet.

ADMIN — CAMERAS

Integrations

- **WordPress plugin** — install, paste your camera ID, done.
- **Any website** — one iframe snippet from your dashboard.
- **Camera groups** — embed a whole resort with a switcher.

ADMIN — GROUPS

Pricing

EUR per camera, VAT excl.

14 days	€5	
1 month	€9	
3 months	€15	
6 months	€22	
12 months	**€29**	MOST POPULAR
24 months	€49	
36 months	€69	

Who it is for

- Ski resorts & mountain destinations
- Tourist attractions & landmarks
- Weather & nature streams
- Beaches, marinas & kite spots
- Construction & progress cameras

Why Camera History

- Self-service product — live today, not a prototype.
- Your branding stays yours — the widget is neutral and fits in.
- Zero maintenance on your side — no servers, no ffmpeg.

See your history, not just now
